You're welcome....i haven't heard back from Amy but I assume she should be able to find what she needs. I guess she was wondering if it was located in one convenient spot. I seem to remember it that way as well. Oh well, I'll let you know if I hear something....

Thanks,  
john

Thanks for the follow up email, John. Did Amy find the info on the website that she was looking for?

Thanks,  
Melissa

Amy – Thanks for copying me on the Liphatech email. Can you please let us know when you find out more information on these use / potential misuse incidents of Rozol? We are especially interested in any ecological (e.g., non targets) incidents. But I guess that's not surprising. Thanks again for keeping us in the loop.

John

**Subject:** rozol sales in Montana

Hi Tom,

Please send me your estimate or actual numbers on the amount of rozol prairie dog bait sold into Montana since the registration approval, or if its easier, and estimate of the amount of product used during the last season.

We are having concerns raised on the use/potential misuse of the product by our state wildlife agency and animal researchers/advocacy groups, just so you know. We have not had any official enforcement cases related, but I will be encouraging these folks to communicate with us quickly and directly when they believe that there may be an issue. I'll keep you updated.

Thanks! Amy
